Data Notes:

- This dataset was obtained from the National Environmental Public Health Tracking (EPHT) Portal at http://ephtracking.cdc.gov/showHome.action
- Data provided by US Environmental Protection Agency (EPA) to the Centers for Disease Control (CDC).
- Most data are submitted to EPA by state air programs, as required under the Clean Air Act.
- Data completeness for each monitor was based on the availability of samples for a certain number of days during each calendar quarter.
- Data are only provided for counties with monitors that pass the completeness criterion.
- The daily PM2.5 National Ambient Air Quality Standard (NAAQS) is 35.0 micrograms per cubic meter.
